

**Proposed Budget:** This fellowship is intended to support allowable costs as outlined in the grant announcement. Allowable costs include travel and lodging for in-person training activities, childcare costs to protect time for training activities, partial coverage of the applicant's salary to protect time for training activities (e.g., summer support), software licenses necessary for the proposed training, and up to \$500 to support attendance of the SPR Annual Meeting. This fellowship does not support the purchase of research equipment or instrumentation, participant compensation, attendance at other scientific meetings or workshops, or institutional overhead or indirect costs.

**IMPORTANT:** The total budget may not exceed \$5000. Fellowships will be evaluated on their cost-to-benefit ratio and whether the requests align with the guidelines regarding allowable and unallowable costs. Smaller budgeted applications are encouraged, so more applications can be funded.

Total Requested Funds (not to exceed \$5000): \_\_\_\_\_
